

**Allegan Response Area Community Board Update Q1 2022**

**Agenda 4/20/2022**

**08:00-09:00**

1. Call to order
2. Allegan Response Area report – January 1, 2022 – March 31, 2022
  - a. Operations Overview – John Pinkster
  - b. Response Time and Mutual Aid Statistics – John Pinkster
  - c. Financial Performance Summary – Kraig Dodge
  - d. General Operations Discussion
3. Other Business
  - a. Update on AL / FN staffing.
  - b. Update on ACMCI EMS response time standard.
  - c. Future meeting platform (live / virtual?)
  - d. Open forum / comments.
4. Next Meeting Date: Able to move the meeting up a week? **Wednesday July 13, 2022 (08:00)**  
**Virtual via Zoom or in-person?**
5. Adjourn

# Allegan Response Area Agreement

## 1<sup>st</sup> Quarter Operations Summary January, February and March 2022

Life EMS is committed to excellence in the communities we serve. We believe the information contained in this report is indicative of our pursuit of excellence and quality as a provider of emergency medical services.

This report reflects Life EMS responses for the five municipalities covered by the Allegan Response Area Agreement for the months of January, February and March 2022. In addition, it provides a brief comparison between the 2022 and 2021 data sets to highlight annual changes and trends.

In the first quarter of 2022 Life EMS Ambulance responded to 480 pre-hospital requests for service in the five municipalities covered by this agreement. This resulted in 372 total transports. Our aggregate on time performance for priority one life threatening emergencies was 86% (based on a 16:00 minute priority 1 time target) with an average response time of 9 minutes and 26 seconds. By way of comparison, our 2021 1<sup>st</sup> quarter responses totaled 353 requests resulting in 274 transports with a priority one on time performance of 92%.

During the 1<sup>st</sup> quarter of 2022, Life EMS provided 55 inter-facility transports from Ascension Borgess Allegan Hospital and 32 wheelchair van trips throughout the community. During the same period in 2021 Life EMS completed 148 inter-facility transfers and 74 wheelchair transports demonstrating a significant decrease in both interfacility volume from Ascension Borgess Allegan and overall wheelchair volume from the community.

Life EMS of Allegan resources provided *internal* mutual aid to the Life EMS of Fennville service area on 40 occasions resulting in 29 transports during the 1<sup>st</sup> quarter of 2022 and provided *external* mutual aid on 23 occasions resulting in 21 transports during the same period.

Life EMS of Allegan received *internal* mutual aid on 40 occasions from a Life EMS of Fennville resource resulting in 33 transports and received *external* mutual aid on 8 occasions during the months of January, February and March 2022 based on combined data from Life EMS dispatch and ACCDA.

Life EMS provided medical standby to Allegan based police and fire personnel on 28 occasions during the quarter totaling over 15 & ½ hours of dedicated coverage to locally based first responder personnel at no additional cost to our communities.

As identified in previous reports, Life EMS has been actively working to address the EMS staffing crisis present not just in our communities, but throughout the nation. One pillar of focus has been retention activities geared toward keeping the current generation engaged as an active part of the EMS workforce while simultaneously ramping up the pipeline of new talent. With this goal in mind, Life EMS has taken a health and safety-based approach towards local retention, supporting pre-hospital provider physical well-being through the securement of seventy (70) Stryker power-load systems.

The Stryker PowerLoad is an innovative patient and provider safety enhancement that reduces cot loading / unloading incidents, promotes safe patient-handling, and protects from repetitive spinal loading and corresponding cumulative back trauma. PowerLoad works by communicating wirelessly with the Stryker PowerPro stretcher to eliminate the need to “steer” the cot into and out of the ambulance while simultaneously taking on the physical stress of loading and unloading up to 700 pounds per cycle (based on an 870lb safe working load including a PowerPro stretcher).

In their research, Stryker found that one in four caregivers suffer a career-ending back injury within their first four years of employment in the EMS field. They go on to explain that some 78 percent of compensation days in the U.S. are related to low back strains and offer that the complete powered patient transfer system made up of the PowerPro stretcher and PowerLoad helps mitigate personnel downtime which has become more critical than ever in the face of EMS provider shortages. In addition to safety, the system enhances scene performance by continuously charging the Power-Pro stretcher battery pack while docked ensuring optimal readiness for patient movement.

Life EMS currently operates six (6) PowerLoad units throughout our fleet and with this expansion we will have a completely powered patient handling system on ALL front-line ambulances across all 10 counties we serve. This purchase will place Life EMS as one of the largest “all PowerLoad” EMS fleets in the Midwest. We anticipate delivery of the PowerLoad systems to take place during late May 2022 with the retrofit of our existing ambulances starting in June then progressing in cadence through July and August of 2022. Once complete, all Allegan based ambulance resources will incorporate PowerLoad which we hope will demonstrate a corresponding reduction of lift related injuries while simultaneously improving associate up-time and ultimately, both provider attraction and retention. As an added benefit, we anticipate the new system will help reduce the need for lift assistance while improving the patient experience and safety for the first responder agencies we partner with throughout the greater Allegan service area.

Shifting from equipment to our talent pipeline we find Life EMS launching a second 10-week hybrid style EMT academy hosted in our Kalamazoo operation. In concert with 100% paid tuition, paid seat time while in class and a defined career development track we hope to rapidly expand our available pool of state licensed EMT’s. This second 10-week program, which started on March 17, continues to combine a significant portion of online training with just one day per week of in-person learning providing our students maximum flexibility and work/life balance. The program also continues a standard 2-year work commitment agreement with Life EMS if electing the fully paid route.

We believe strongly that continuing this program format will be a win-win for our community by removing previously identified barriers to entry in a high-demand career field while bolstering our regions long term staffing. This program is currently under way with an initial cohort of 15 students and a projected graduation date of May 13, 2022.

As this report demonstrates, Life EMS has an unwavering commitment to provide the best pre-hospital advanced life support to the communities we are entrusted with. We continue to improve, learn, and grow. We look forward to the continued partnerships of the Allegan group and consider it a privilege to serve a community of which we are an integral part. Our compassion for people, skill to deliver timely care, and drive to succeed is at the heart of what we do every day at Life EMS. Thank you for allowing us to demonstrate this to you the communities we partner with.
